Maximise your child's university potential

As British or Irish expats living abroad you are at risk of your child being assessed as an Overseas fee payer by UK universities. This could cost you tens, or even hundreds, of thousands of pounds more in tuition fees than if they were a Home fee payer.

Following your Fee Status Appraisal with us, we invite you to book our Fee Status Support Service. Delivered by our specialist team, this Service offers personalised, in-depth advice to maintain your eligibility and maximise your chance of achieving Home fees.

Fee Status Support Service

Our expert Service is completely tailored to your individual circumstances. It includes:

1. Dedicated Fee Status Advisor

You will be assigned an Advisor who is trained and highly experienced in the fee status legislation to work with you throughout the Service on your personal fee status case.

They will be your point of contact for any questions you have and will guide you through the fee status process from start to finish.

2. Onboarding Pack

Your pack will contain the background of your Fee Status Advisor and details on how to contact them. We will offer you suggestions on how to make the most of your Fee Status Support with us to you maximise what the Service can offer you. And you'll receive a timeline of key dates, deadlines relating to your fee status and our contact points with you.

3. Initial Consultation

We will begin our partnership with you by explaining the fee status legislation that is relevant to you in detail, so you understand your eligibility.

We will develop a plan of proactive steps you can take to enhance your chances of achieving Home status.

4. Continuous Support

Throughout the Service, we will have regular check-in meetings to ensure you are maintaining your Home-fee eligibility. We will consider any changes to your circumstances that would impact your case, such as property, employment, education, expatriation, or repatriation and adapt our advice to you accordingly.

Should the legislation change, we will inform you where relevant.

Our regular check-ins with you include:

Evidence Check

A key part of your fee status case will be the evidence you can provide to support your claim for Home fees. We will discuss what evidence you have and its relevance to your case so you are able to prepare and organise your documents before any fee status assessments begin.

Pre-Application Check-In

Prior to application submission, we will advise on how to complete fields on the UCAS application form that are relevant to fee status and discuss your child's university choices and how these might affect fee status outcomes to help you make informed decisions.

Post Application Support

We will support you with any fee status queries and assessments from all 5 of the universities that your child applies to. This may include completing complex questionnaires or navigating a fee status appeal process by a certain deadline. We use our knowledge of the legislation and your unique case to draft appropriate supporting statements and appeal statements for you, as needed.

Due to the eligibility period for Home fees spanning the three years prior to the student starting university, we offer our Fee Status Support Service to families from four years ahead of university.

For this reason, it is recommended that you take up our Service as early as is possible to maximise the benefit of our Service under the one-off fee.

Financial Impact

The most recent analysis showed that, our Fee Status Support Service saved our families an average of £65,700 per student, with the highest saving for an individual student reaching £273,000.

With Overseas fees at UK universities climbing higher each year, our Service can save you up to £400,000* on your child's university degree by helping you to secure the Home fee rate.

By saving this life-changing amount of money, you will be better able to make informed decisions about your children's education and plan for your family's future.

*Based on the highest Overseas tuition fees at a UK university for the 2025/26 academic year.

Accept Your Best Offer

Our Service can often be the difference between whether your child is able to accept their hard-earned university offers or not. With our support increasing the likelihood that offers will come with Home fee status, students can accept their best offer rather than decline it due to the unaffordability of the Overseas fee status they've been given at that university.

In some cases, the families we have supported would not have been able to send their children to university at all on Overseas fees. Our Service meant their children were able to go to university on Home fees and fulfil their education and career ambitions.

Peace of Mind

The fee status rules are complex and confusing; working with you, we will translate the jargon, dispel the myths and clarify what part of the rules apply to your personal circumstances. We stay with you throughout the university admissions process, reducing the stress of this critical time and giving you the peace of mind of having a trusted guide to help you navigate any fee status issues.

Our support can also accelerate the admissions process by clarifying your child's fee status at the earliest opportunity, relieving the tense wait for news from universities that your child has received an offer.
